

LMREA

Safe equipment. Smart mobility.

Designer & Manufacturer

MU3

The MU 3 cell is a complete, secure workstation designed to house and safeguard all your IT equipment: an LCD screen (up to 22 inches), system unit, printer and keyboard. Its one-piece structure is formed from a single thermoformed thermoplastic component, delivering outstanding sealing and durability thanks to 19 mm-thick composite walls. Split into three compartments, it makes the most of the available space while providing quick, straightforward access to every component.

Dimensions (mm):

External: W 605 x D 600 x H 985 (front) / 1070 (rear)

Internal (Screen + CPU unit): W 565 x D 560 x H 395

Internal (Printer): 520 x 560 x 370

Internal (Keyboard): 470 x 390 x 80

DESCRIPTION:

- **Structure:** One-piece thermoplastic body with 19 mm-thick composite walls.
- **Access:**
- **Upper compartment (Screen/System unit):** 6 mm transparent PMMA flap on hinges.
- **Keyboard compartment:** Drop-down flap serving as a support for the pull-out polyethylene shelf.
- **Integrated connections:**
- A 3-socket 220V (10/16 A) power strip with illuminated main switch.
- Two standard cable glands (for 7 to 13 mm cables).

BENEFITS:

- **All-round, heavy-duty protection:** Its extruded composite design reliably shields equipment from knocks, dust and splashes in demanding working environments.
- **Ergonomics and easy access:** The unit features two pull-out shelves—one for the printer and one for the keyboard—for quick, straightforward handling of your equipment.
- **Flexible installation:** It can be mounted on a dedicated stand or fixed directly to the wall, giving you plenty of layout flexibility.

OPTIONS

Stainless Steel Base

High-quality stainless-steel base, durable and easy to maintain.

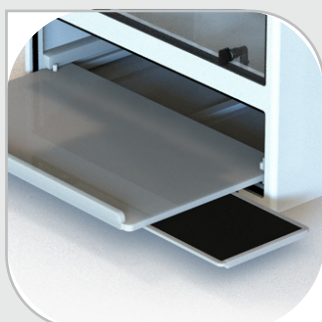

Stainless Steel Wall Bracket

Stainless steel wall bracket for securely mounting equipment while keeping floor space clear.

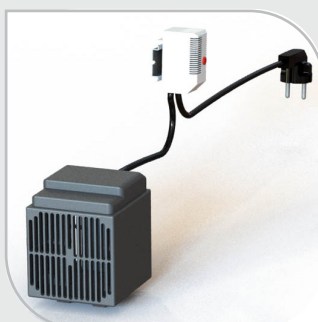

Intermediate shelf on frame

Intermediate shelf integrated into the frame, providing practical, easy-access storage.

Mouse Shelf

Sliding mouse shelf providing a dedicated space for comfortable mouse use.

RCA

RCA thermostatically controlled heating element to maintain a stable, even temperature.

KDL

No-cut cable grommet for neat cable routing with no changes to the furniture.

4 swivel castors (2 braked)

Heavy-duty wheels designed to make moving equipment easier.

ECA

Ventilation system that promotes good airflow and efficient heat dissipation.
