

Mobirack alu

Static workstation

The **Mobirack Alu** is a lightweight yet robust aluminum mobile workstation designed to accommodate a complete IT setup, including a monitor, CPU, printer, and keyboard. Its strong but lightweight structure enhances mobility while providing excellent organizational capacity to optimize mobile workspaces in industrial or logistics environments.

Combining lightness, durability, and ergonomic design, the Mobirack Alu is the ideal solution for optimizing mobile IT stations.

Key Features

1. **Manufactured from 40×40 aluminum profiles**, offering strength, lightness, and long-lasting durability.
2. **Three shelves**, including one fixed or pull-out shelf, all height-adjustable to hold various equipment such as thermal or laser printers.
3. **Effortless mobility** ensured by four 100 mm wheels (2 fixed, 2 swivel with brakes) for optimal maneuverability on all types of floors.
4. **Modular and scalable design**, with the option for delivery disassembled to simplify transport and on-site assembly.

Specifications

- Main structure: 40×40 mm aluminum frame.
- Shelves: Three shelves, including one pull-out shelf, all height-adjustable.
- Upper handlebar: For mounting a monitor or additional accessories.
- External dimensions (mm): Width 615, depth 675, height 1055 (1470 mm with handlebar).
