

Moovi

Computer Cart MOOVI for Healthcare Environment

The **MOOVI** is a mobile IT cart specifically designed for healthcare environments, intended to securely and ergonomically accommodate a complete IT workstation. Its robust 1.5 mm steel sheet structure consists of a central mast, a monitor mounting plate, and a stable base mounted on four swivel wheels. One of its major innovations is the simultaneous height adjustment of the screen and work surface across four positions, using a central handle and indexing pin, allowing perfect adaptation for each user. Cable routing is discreetly integrated inside the mast, ensuring a clean appearance and enhanced safety.

Key Features

- **Optimal Ergonomics and Mobility:**
Synchronized height adjustment and four swivel wheels (including two braked) provide exceptional maneuverability and user comfort in daily use.
- **Equipment Protection and Security:**
Full integration of IT equipment on the cart greatly reduces the risk of damage, loss, or theft. The base is also protected by PU foam padding against shocks.
- **Enhanced Productivity:**
By centralizing all necessary tools (PC, keyboard, mouse, barcode scanner) on a mobile workstation, the MOOVI minimizes movement and streamlines care processes.
- **Modular Design:**
The cart is designed to evolve with your needs, with the option to add up to six storage accessories and an autonomous power unit.

Specifications

- **Structure:** 1.5 mm steel sheet consisting of a mast, monitor mounting plate, and base.
- **Work Surface:** Accommodates keyboard, mouse, and barcode reader; includes a central handle for handling.
- **Connectivity:** Cable routing fully concealed inside the mast.
- **Mobility:** Base mounted on four swivel wheels (two with brakes), protected by PU foam padding.
- **External Dimensions (L × D × H):** 610 × 771 × 1608 mm.

Options or Variants

- **Multiple Storage Options:**

The cart can be equipped with a support frame capable of holding up to six different storage accessories.

- **Energy Autonomy:**

A lithium power unit can be optionally integrated at the back along the mast for extended wireless use.

- **MOOVICARE Version:**

A specific variant, the **MOOVICARE**, is available to allow the healthcare cart to be docked directly onto the MOOVI.
